Will their be a way for us to upload our photo album like on the old site?

Sorry Jason, I missed this post for some reason. Glad I checked.

I never used the photo album on the other site. So I don't know what Hini had. But you can upload photos in your profile here at MyHini. Right now we have a limit on the quota but we can increase it if you think we should. Give me input on that.

Go to your profile and click on CB PROFILE GALLERY. You will see link to upload your photos. Right now the default came with 10 photos and 1Mb allowance. I can change that if you need me to. But if I do it changes for everyone. Just let me know if that is needed.

Hey no problem..

I think you pretty much answered my question.. I wasent sure if their was a way to upload extra photos to our profile. I cant remember exactly how the it worked on the old site but this should work fine.

The limit should be plenty for me but i was thinking that some members might want to share their photos of their trips and loved ones..

Thanks :)

Last time Jason told me that he switch into another course which has something to do commerce.

I think Jason prefers this course than becoming a pilot.

Jason. are you still coming to visit PI?

Hello all. I talk to him all the time. He is an instructor working on ratings. Yes, he has changed course but not from flying. I'll tell him to get on here and update everyone. :cheer:

Hi Apple, Fly and everyone! Sorry I been away so long. I been super busy with school and flying these past few months. The flying is comming along pretty good although most of my time right now is spent in school keeping up in my classes. Im majoring in Nursing here at the University and I love it. I'll keep flying also but Nursing will be my main job coz I love the work and helping people. I did change my major a while back. When I first started I thought about taking engineering but I quickly aquired a dislike for math and just didnt like the engineering classes coz they were boring. Now that im in the nursing classes im loving it so much better and having past experience in the medical field helps me a lot already coz most of it im already familiar with.

I dont remember if I mentioned it or not but i'll be visiting the Philippines this coming may and I cant wait :)

I'll be going there to visit someone special that I have known for quiet some time now and im looking forward to spending a lot of time with her :) .. hmm, if you want to know more then your gonna have to ask me LOL..

Take care everyone, I'll try to make it a point to log in more often and post some updates :)

It's always better to go after something that you enjoy. Taking classes on stuff when you heart is not really into it will do nothing but make you frustrated and waste your money. Good move on changing courses, at least now you are happier and will be able to earn a pretty decent living no matter where you go. Good luck to you on this. Also, good luck on your upcoming trip to the Philippines. My next trip there will be to pick up my wife and step son and bring them home. Hopefully Apple will visit with me while I wait for the flight to go to Zamboanga at that time. :) Dont have a date for that yet, but it should be before the summer.

Your exactly right... Its really disheartening to struggle in classes or a career that you really arent interested in. Im just hoping to do good for me and my honey so education is really important to me now also its something I really like too..

Hey, Congratulations on bringing back your honey.. I wish you and your family all the best.. We might be over in the PH about the same time.. I guess i'll spend about 10 or 12 days when I go even though its not long enough.. It will be a while yet before im able to bring her back.. I guess all I can do until then is just visit as often as im able.. sigh!

Hope all goes well for you :)

I really should start posting messages here more, been so busy. Can we setup like a public photo album where we can upload the photos. That's what the old Hini had Jason. We had our own gallery and a public one where everybody can share photos. :-) I think that's how I remember it.

Re:Photos

I wished i remember that part of hinigugma. But i apparantly didnt use that feature. i will check into this and see what we can come up with. Right now we can actually do that but creating a topic section and just post photos within the topic discussion. And in the mean time i will check into this.

You can still post them. It is nice to see those pictures that once has been in your life rather than it was never been. Those pictures will remind you happiness and something to learn.
