I was trying to check on old emails here when I realized there's no link to click to go to my emails. If there's one what is it? :S

one thing I can tell you is if someone wrote something to you like a private message it will show up when you sign in. but i will try to create a easy link to go to the post office feature of the website.

Yeah. That's what I've been doing so far. :-) When I have new emails I do see it come in so I get to click that and it routes me to the inbox.
